## What is a Fax to Email number?

A Fax to Email number is a unique virtual number where you can receive faxes. These faxes are sent directly to your email address. No more wasted paper or jammed expensive machines. You will receive your fax, delivered to your email even if you are traveling.

## Are you frustrated with engaged fax lines?

Your 086 free fax number will never be engaged. You will be able to receive unlimited faxes, 24 hours a day, with absolutely no interruption.

## Is it only for business users?

The free service is available to companies as well as to any member of the public who wishes to use the service.

So why not experience the convenience of having your own fax number. No more confidential information laying around for everyone to see.

## What does it cost?

There is absolutely no cost for making use of your free fax number. The sender only pays Telkom for the faxes being sent.

## How do I get it?

Simply visit our website and sign up: [www.freedomfax.co.za](http://www.freedomfax.co.za).

If you would like us to set-up free fax numbers for your entire organization, simply send us an email containing the name, surname and email address of each employee as well as your company contact information.

## Do I have to sign a contract?

No! No signing of contracts whatsoever.

If you decide not to use the service any more you can simply cancel the number.

## How long will it take before I can use it?

Once you have signed up successfully your 086 number is available immediately.
